

C14: API_put_post

Type	Priority	Estimate	References
Performance	High	1 minute	None
Automatization_type			
Cypress Framework			

Preconditions

Website access
Cypress framework (v13.13.0)
Node.js (v10.8.1)
VisualStudioCode (v1.91.1)
Web browser: Google Chrome
Operating System: Windows 10

Steps

1. Send a PUT request to the endpoint <https://jsonplaceholder.typicode.com/posts/58>.
2. Verify the response status is 200.

Script:
describe("HTTP request", () => {

```
it("Put call", () => {
  cy.request({
    method: 'PUT',
    url: 'https://jsonplaceholder.typicode.com//posts/58',
    body: {
      userId: 1,
      id: 58,
      title: "Update",
      body: "call"
    }
  })
  .its('status')
  .should('eq', 200);
})
})
```

Expected Result

Post id.58 is updated.
Response status is 200 OK
